**Reindeer**

Reindeer are large animals  
That live in the North  
They migrate to find food  
And travel back and forth  
They have large hooves  
That they use to break the ice  
In the summer their hooves  
Which is very nice.  
They also have large antlers  
Sticking from their heads  
In December some males fall off  
And females stay on instead.
