WHAT DO YOU THINK?

TRUE OR FALSE?

A reindeer's nose is actually red.

TRUE

Reindeer have a lot of blood vessels in their nose to help them control their body temperature that turns their nose red.

WHAT DO YOU THINK?

TRUE OR FALSE?

A reindeer's nose warms them up.

TRUE

A reindeer's nose is full of blood vessels. When it is hot outside, those blood vessels cool down the hot air. When it is cold outside, those blood vessels warm up the cold air. This allows the reindeer to survive the extreme weather.
