WHAT DO YOU THINK?

TRUE OR FALSE?

Spiders have 48
knees.

TRUE

Each of the spider's legs
has 6 joints. Since they
have 8 legs, that makes
48 knees total.

Interactive Digital Google Slides

WHAT DO YOU THINK?

TRUE OR FALSE?

Spiders can be helpful.

TRUE

Spiders commonly eat mosquitoes, flies, moths, earwigs, and cockroaches. They help keep these pests under control. This also helps farmer's crops too.
