

TURKEYS TRUE OR FALSE?

Interactive Digital Google Slides
Megan Mitchell FIRST GRADE ROARS

TRUE OR FALSE?

Turkeys have a flap of skin under their beak called a wattle.

TRUE

The wattle hangs on their neck. On hot days, the wattle helps release the heat from a turkey. This helps them since they don't sweat.

WHAT DO YOU THINK?

TRUE OR FALSE?

Turkeys have excellent hearing.

TRUE

Turkeys can hear far-off sounds and low frequency sounds. Their hearing is better than humans. This allows them to detect a threat easily.
